## Woolen Blouse

It's wool, but it's light, this blouse made of a material weighing but one ounce to the square yard. To bring out the tiniest beauty of the fabric, the bodice of the blouse is beautifully pleated and has full bishop sleeves.

## Uncle Sam Says

All of us are familiar with quizzes about this and that. Let's take this question: What is the strongest, economic family asset in America? Millions of you could win the jackpot prize for the correct answer. U. S. Savings Bonds, of course. Ownership of U. S. Savings Bonds is now part and parcel of our American way of life because Americans know that Savings Bonds help to build a better, firmer future. Americans know that they yield a good profit at no risk at all to the principal.

## Hoover Sees Crime Army of 6,000,000

### FBI Chief Warns of Wave Of Lawlessness.

WASHINGTON—FBI Director J. Edgar Hoover said the nation "is facing a potential army of six million criminals" and an "ever-increasing wave of lawlessness which is feeding the criminal ranks with a never-ending supply of recruits."

"Our homes and our lives," Hoover declared, "are daily threatened by this vast army. Law enforcement today is facing one of its most gigantic tasks.

"The crime increase so far this year is even greater than 12.4 per cent increase recorded for 1945. And every 20.1 seconds last year a serious crime was committed; every 6.4 minutes someone was raped, feloniously assaulted or slain."

Hoover stressed that the "vast army" of criminals "is in many greater in number than the number of students in our colleges and universities. And for every school teacher in America there are more than seven criminals."

In an interview Hoover outlined what he considers the immediate causes for "the present wave of lawlessness," and he suggested some remedial measures.

He attributed the crime wave to: "A recession of moral fortitude, lack of discipline in general, lowered moral standards, social and economic conditions, and abuses and maladministration of the penal system." He emphasized "laxity in parental control," saying:

"We must eradicate the cause of crime at its roots. Small crimes generally precede great crimes and too often these small crimes are perpetrated by youngsters still presumably under home influence. Every home in America must become a breeding for good citizenship and not, as in many instances today, a breeding place for criminals."

## Gets 10-Year Term for Theft of Pearl of Asia

PARIS—Yvon Collette, who escaped from a mental hospital a month ago by gnawing his way out of a straight jacket, was sentenced to 10 years in prison and fined 50,000 francs (about $420) upon conviction in absentia of theft of the Pearl of Asia, a gem valued at $200,000.

Collette's wife, Georgette, was sentenced to two years' imprisonment and fined 10,000 francs (about $84), and Joseph Klop, accused of posing with Collette as a policeman to aid in the jewel theft on April 6, 1944, was sentenced to five years' imprisonment and fined 20,000 francs (about $168). The fines were levied to pay the expenses of the pearl.

The pearl was recovered from a water tank in a Marseille hotel and has been restored to its owner, R. P. Robert, head of a religious organization.

While awaiting trial a month ago, Collette was transferred from prison to the hospital, where he made his escape. He is still at large.

## Industry Is Booming In Russ Reich Area

BERLIN — Industry in the Russian zone of Germany is booming, with no unemployment in Saxony and Thuringia and an actual labor shortage in some sections, German officials told a group of American correspondents who have just returned from a conducted tour of the Saxony - Thuringia industrial area.

They said the greater portion of the finished products of German factories was going to Russia for reparations. From the huge Zeiss optical works in Jena, the largest industry in the Soviet zone, the Russians are taking 90 per cent of production, the German factory director said.

Subscription rate: $1.50 a year, payable in advance.

OPENING DATE OF WHITE SCHOOLS, THURSDAY SEPTEMBER 12, 1946.

OPENING DATE OF NEGRO SCHOOLS, FRIDAY SEPTEMBER 13, 1946.

HOUR OF OPENING SCHOOLS: 9:00 A.M. Eastern Standard Time.

AGE OF ENTRANCE: A child entering school for the first time must be six years of age by November 1st. No deviation from this regula ion is permitted.

PHYSICAL REQUIREMENT'S OF CHILD ENTERING SCHOOL: Parents are asked to see that child is in as good physical condition as possible before entering school. It is especially desirable that the beginner be examined before entering and present the usual medical and dental examiner's card. The pupil should bring a birth certificate on the first day of school and show a successful examination against smallpox, or furnish a statement from a doctor to why vaccination is not desirable. This is required by the state law. A pupil who does not meet these requirements may not be enrolled in school until requirements are met.

COMPULSORY ATTENDANCE LAW:
Up to one year ago, pupils who had completed the Seventh Elementary Grade or who had reached the fifteenth birthday could legally stop school. Present regulations however require the pupil to remain in school until the sixteenth birthday is reached; or, until the high school course is finished. Parents are urged to cooperate with teachers, principals and school authorities in seeing that this state law is properly enforced. A full-time Attendance Officer (Designated as the Visiting Teacher) will be on duty this year to assist teachers and parents in the successful carrying out of this important law.
Many boys and girls have dropped out of school and gone to work before completing their school program. This is a most unfortunate occurence. Students who do this, and parents who permit it, invariably regret later on that they have sacrificed the opportunity of completing their high school education. Therefore, it behooves all of us to work together to prevent children from dropping out of school. It vitally concerns each one of us.
Likewise careless and irregular attendance on the part of children greatly handicaps them in their school work. It is discouraging and causes many drop-outs. May we urge all parents to keep their children in school, and cooperate with the teacher and the child in securing the best possible percentage of attendance in 1946-47.

PUPILS MUST ATTEND SCHOOL NEAREST THEM:
State and local regulations require that pupils attend the school nearest them and school bus drivers are not permitted to take children past the school which they should attend. In trying to meet the wishes of patrons in the past, the School Board has permitted pupils taking music to come by elementary schools nearest them in order to attend the school offering music. Due to the crowded conditions of such central schools, and due to the over-crowded conditions of many busses, the School Board is compelled to limit this privilege to those who have already begun their music courses before this year and cannot allow any additional pupils to come on the busses for this purpose. Those who have already begun their music courses will be allowed to continue, provided transportation and classroom facilities permit.

SCHOOL CALENDAR- 1946-47:
Next week in this paper a complete school calendar for 1946-47, showing school holidays, days to be taught in each month, and other useful information, will be published. This is valuable and should be kept as a reference by parents.

A cordial invitation is extended to all parents to attend the opening session of our schools and we trust that many will come. It is earnestly hoped that in spite of handicaps under which many schools now operate, that we may have a very successful year from every standpoint and we can do so if we all work together to that end.

Respectfully yours,
J. A. BURKE
Superintendent of Schools.
